Hydrafacial

We were the first skin clinic in Hove to offer the Syndeo®
The newest, most advanced Hydrafacial system.*

The world-famous, multi award-winning Hydrafacial is a non-invasive treatment that, unlike traditional facials, is performed via device rather than by hand, for deeper penetration and longer lasting results.

The innovative handpiece works like a vacuum to open pores, deep cleanse and ease the extraction of impurities. This also allows the active ingredients in the Hydrafacial boosters to penetrate deeper, for a more effective treatment.

Hydrafacial starts with 3 essential steps:

Cleanse

Deeply cleanses and exfoliates with a gentle peel to uncover a new layer of skin.

Extract

Removes impurities from pores with gentle vacuum suction.

Hydrate

Saturates the skin's surface with intense moisturisers and nourishing, personalised ingredients.

From there, you can then choose additional ways to personalise:

Lynton Illumifacial®

IllumiFacial® is the 'next generation' of the highly successful 'photo-facial' skin treatment, using a new combination of specialist Lynton skincare, together with powerful, medical-grade Lynton IPL technology.

This quick and simple skin rejuvenation treatment dramatically improves skin tone and appearance due to its ability to promote cellular activity and subtly restructure collagen within the skin.

IllumiFacial® will help to even out areas of uneven pigmentation and treat broken thread vessels. In combination with a specially selected formulation of acids and enzymes, the illumifacial® treatment results in a fresher, flawless complexion and a reduction in open pores.

60min £210
Including the neck £240

16.

Dermapen Skin Microneedling

Dermapen Skin Microneedling stands firmly as one of the best, scientifically-proven treatments for incredible skin rejuvenation

The treatment is a form of collagen induction therapy where a series of tiny needles penetrate the skin at a vertical angle using a specialist medical device, for faster and more precise needle penetration. The procedure causes thousands of micro-injuries, which leads to increased collagen production, effectively repairing scars, reducing discolouration and renewing tired looking skin.

The Dermapen has revolutionised micro skin needling, making it easier, safer and less painful to get maximum results compared to traditional derma roller skin needling. The results are more extraordinary, longer lasting and treatment time is faster, making this a top choice for anyone looking to achieve younger, smoother and firmer skin.

Including Dermalux LED phototherapy £179

17.

Dermalux® LED Phototherapy

Multi-Award winning Dermalux® LED Phototherapy is the leading, non-invasive treatment that harnesses the power of natural light for visibly radiant, rejuvenated and refined skin. The Dermalux® Tri-Wave MD is currently the most powerful LED machine in the world, delivering results above and beyond any other LED treatment.

Dermalux® LED Phototherapy delivers skin specific treatments using combinations of clinically proven Blue, Red and Near Infrared wavelengths to boost collagen and elastin production, improve circulation, reduce redness and irritation and blitz blemish causing bacteria.

Utilising the latest generation LED technology, Dermalux® ensures a completely safe and targeted delivery of light. It is heat free, chemical free and does not harm the skin. Dermalux® has an excellent safety profile and is beneficial for all skin types without downtime.

10_{min} add-on £29

18.

Lumenis Nuera Tight Radio Frequency

NuEra Tight is a non-invasive, temperature-controlled, Radio Frequency (RF) treatment, which improves the appearance of skin laxity without downtime.

Unlike older radio frequency devices, the innovative Lumenis® NuEra Tight has the ability to precisely deliver heat to the desired depth within the tissue over a certain amount of time to ensure consistent and reliable results.

The deep dermal heating enhances collagen production, which effectively smooths the appearance of fine lines and wrinkles, and dramatically tightens loose and sagging skin.

Unlike some advanced skin treatments that can be a little uncomfortable at times, the NuEra Tight is very relaxing and has a similar sensation to that of a hot stone facial massage.

Advanced Blemish Removal

Facial Thread Vein Treatment

Medically referred to as Telangiectasia but commonly known as broken capillaries, red veins or spider veins.

We effectively treat facial thread veins simply and easily using Lynton IPL (intense pulsed light, similar to laser) or by Thermolysis, using Sterex Advanced Electrolysis.

Both treatments are a safe, effective way to banish thread veins. The treatment option best for you will be determined during consultation.

We are also able to remove Blood Spots (medically referred to as Campbell De Morgan or Cherry Angioma) and Spider Naevi (central dilated blood vessels with small capillaries radiating from it), using the same methods.

From £110

Milia Removal

Milia are small, hard, white raised bumps or spots, which lie superficially under the skin. They are normally found around the eye area and cheeks but can appear anywhere on the face or body.

We quickly, safely and effectively treat milia using one of two methods; Diathermy or Needle Extraction.

From £80

Skin Tag Removal

Skin Tags are small, brown or flesh-coloured growths (usually a couple of millimetres to 5cm in size) that hang from the surface of your skin. They are made of loose collagen fibres and blood vessels surrounded by skin and can look like warts or raised bumps.

Although skin tags are common, they are completely harmless and do not usually cause any pain or discomfort. However, they can snag on clothing or jewellery and bleed as a result, and can also lower your self-esteem.

We safely remove unwanted skin tags in many areas of the body using advanced electrolysis techniques with Sterex technology.

From £130

For more in-depth information and FAQs on these skin concerns and treatment, please visit our website.

CACI Lifting Treatments

CACI's award-winning, facial toning treatments have become known as "the non-surgical face lift." A unique combination of specific waveforms, tiny electrical impulses and ultra-low frequencies work in harmony with the body's bio-electrical field, to tone the facial muscles and rejuvenate the skin.

CACI also combines perfectly with our NuEra Radio Frequency treatments, for the ultimate in bespoke lifting and tightening for the face.

CACI Ultimate

This ultimate anti-ageing treatment incorporates the traditional CACI facial lift with the added benefits of gentle microdermabrasion, LED light therapy and a deeply hydrating mask. The CACI Ultimate helps to redefine facial contours, plump fine lines and wrinkles and tackle a wide range of skin imperfections.

90_{min} £125

CACI Non-Surgical Face Lift

The classic CACI lifting and firming treatment to redefine facial contours, boost radiance and smooth fine lines and wrinkles.

60_{min} £85

Super CACI Non-Surgical Facelift

The CACI Non-Surgical Face Lift with extended lifting time.

75_{min} £105

CACI Jowl Lift

Lifting and firming the most common area of concern, this express treatment helps to redefine a sagging jawline.

25_{min} £45

Intense Jowl Contour

A powerful combination of CACI lifting technology and NuEra Tight Radiofrequency. This jowl-focused treatment helps to tone the muscles of the lower face, whilst stimulating collagen, resulting in a smoother, tighter and more lifted appearance.

45_{min} £100

Revital-Eyes

A dynamic-duo of CACI microcurrent and Environ Focus-On Filler treatment, together with pressure point and drainage massage, effectively lifts, plumps and brightens the delicate eye area.

75_{min} £135

Microdermabrasion

A deeply exfoliating, abrasive skin treatment to reveal a brighter, smoother and clearer complexion.

Using innovative abrasion technology, precise control over the depth of exfoliation is achieved and can be specifically tailored to suit all skin types. Abrasion of the skin reveals a softer, brighter and more youthful complexion.

An effective treatment for photodamage, open pores, congestion and scarring, our microdermabrasion treatment also incorporates the use of LED phototherapy to further enhance the results.
